the converted [converting the] image data [to] in a format corresponding to the image mode [and transmitting the converted image data to the receiving unit].

Please add the following new claims 4-10 as set forth below:

*Sub 1017*  
4. A portable handheld telephone system for selectively communicating with at least one of a plurality of receiving units, comprising:  
(a) a telephone keypad for selecting a particular receiving unit;  
(b) an image sensor for capturing image data;  
(c) a memory for storing the captured image data; and  
(d) a portable transceiver / receiver including an antenna for transmitting the stored image data to the particular receiving unit.

*a2*  
*2* 5. The portable handheld telephone system of claim 4, further including an image display for displaying the stored captured image.

*3* 6. The portable handheld telephone system of claim 4, wherein the memory can store a plurality of captured image data.

*4* 7. The portable handheld telephone system of claim 4, further including flash unit.

*5* 8. The portable handheld telephone system of claim 4, wherein the memory stores phone numbers for the receiving unit.

*6* 9. The portable handheld telephone system of claim 4 wherein the image transmission uses facsimile modes.

*7* 10. The portable handheld telephone system of claim 9, wherein the facsimile modes include Group IV facsimile and color facsimile. *6*
